

*The World's Most Trusted Conveyor*

## **VERSATILE, AFFORDABLE**

garment storage  
& retrieval conveyor

## **SOLUTION**

for restaurants, hotels, theaters, clubs,  
resorts, casinos and more!

## White's Stor-U-Veyor Garment Storage and Retrieval Conveyor **Cost Effective Solution that Saves Time and Space**

White Conveyors, the world-wide leader of automated garment sorting, storage and retrieval systems, provides Stor-U-Veyor - the most flexible and easy-to-use garment storage conveyor available. This space saving system provides easy access to customer's garments and personal items, employee uniforms and can also be used to store and retrieve coats, umbrellas, hats and other items. Imagine how it could be put to use in your operation!

Checked in items are placed onto an available slot on the conveyor. When ready to retrieve, the conveyor can be rotated to the designated slot manually with hand or foot controls or automatically with a keyboard controller which selects the shortest route (left or right) to the slot location.

Ideal for restaurants, hotels, theaters, clubs, resorts, casinos, and any other business with limited budgets and storage space, White's garment storage conveyor has been designed for ease of use, durability and time savings, eliminating unsightly coat racks or cluttered shelves.

- Coat Check and Delivery**
- Uniform Storage and Delivery**
- Secure Personal Property Storage and Retrieval**
- Guest Dry Cleaning Storage and Retrieval**
- Reliable, Robust and Durable Construction**
- Simple User-Friendly Operation**
- Easy Access to Garment - Saves Time**
- A Choice of Conveyor Lengths to Meet Every Situation**

# Versatile Garment Storage and Retrieval Solution for any Business with Limited Space

White Conveyors Stor-U-Veyor is available in a wide variety of configurations and shapes to fit any area. In addition to the single tier "W" model, White offers a double tier "DS" model (shown on left) with two full levels of hangered garments. We also offer an Up'N'Down unit that goes up to the ceiling at a 45° angle to save valuable floor space. What's more, you can "design your own conveyor" in any length or shape to perfectly fit your needs.

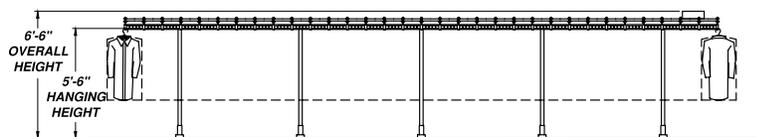

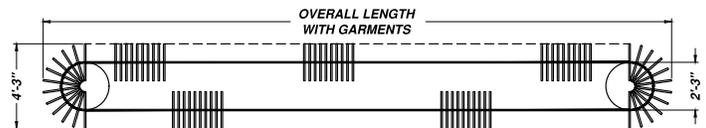

Optional 601 hand switch controller used in conjunction with 600 series KBD or stand alone. 600 series controllers have lock-out capabilities for multiple control requirements for single conveyor.

Optional foot switch - with 25 ft. cord.

MODEL Number	Number of Slots	LENGTH of Hanging Capacity	OVERALL LENGTH with Garments*
W220	220	22'-0"	12'-0"
